REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Although the applied reference EP 0 537 609 discloses an oligomerization of olefins in the presence of catalyst system which is the same as claimed in the instant application, the reference does not disclose or suggest adding transition metal complex continuously or in portions to the reaction system in order to maintain catalyst activity. The examples in the instant specification show superior results when the chromium complex is added in portions during the oligomerization over where the chromium complex is added all at once.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to In Suk Bullock whose telephone number is 571-272-5954. The examiner can normally be reached on Monday - Friday 6:00-2:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
